Elementor flatpicker css fix

🕒 1 min read

Last Updated:

🕒 4 months ago

🔗

Elementor use an old version of flatpickr that messes the date popup on Geodir pages

CSS

Copy

```
body:not([class*=elementor-page-]) .flatpickr-prev-month.flatpickr-prev-month,
  height: 34px;
  top: .75rem;
}

body:not([class*=elementor-page-]) .flatpickr-month {
  height: 80px;
}

body:not([class*=elementor-page-]) .flatpickr-innerContainer {
  justify-content: center;
}
body:not([class*=elementor-page-]) .flatpickr-weekdaycontainer {
  display: flex;
  flex: 1;
  justify-content: center;
}

}
```
