Settings Overview for Locations > Regions

 1 min read

Last Updated:  4 months ago

This is the settings overview for **Locations > Regions** page.

You need to have the [Location Manager](#) addon installed and activated to access this page.

Regions

This page lists the **regions that have been added to your directory** in a tabular form, much like WordPress lists pages and posts. Here is a preview:

Regions

All countries

Filter

Search region

2 items

| Region | Slug | Country | Image | Cities | Listings | |
|--------------|--------------|---------------|-------|--------|----------|---|
| Akmola | akmola | Kazakhstan | | 1 | 0 |  |
| Pennsylvania | pennsylvania | United States | | 1 | 0 |  |
| Region | Slug | Country | Image | Cities | Listings | |

- **Region** – Displays the region name.
- **Slug** – Displays the region slug.
- **Country** – Displays the country of the region.
- **Image** – Displays the image for that particular region.
- **Cities** – Number of cities added to that region.
- **Listings** – Number of listings for that region.
- **Edit Button** – You can use the **Edit** button on the far right to edit meta data and other info for each specific region.

All Countries (Dropdown)

For bigger sites with multiple countries and regions, you can **use the dropdown at the top to display regions by country**. You need to **select the country from the dropdown menu**, and the regions of that particular country only will be shown in the list.

Editing a Region

- 1
- The **Edit Button** is at the extreme-right of the Regions list.
