Marker Cluster can be enabled in the **map widget**, **block** or **shortcode** settings.

The Map Widget comes as a Widget, Shortcode as well as Block. Learn more about our [Super Duper Widgets](#).

Enabling Marker Cluster in Individual Maps

Depending on where you wish to display the map, you may choose to add it as a widget (to any widget area defined by your theme), shortcode (to any content area), or block (anywhere using Gutenberg editor).

1 When adding the individual map, click the **Advanced Settings** button.

GD > Map

Displays the map.
