On this page

[Adding New Rating Styles](#)[Adding a New Rating](#)

In order to add new **Ratings**, you should first add a new **Rating Style**.

Adding New Rating Styles

1 Navigate to **GD > Settings > MultiRatings > Rating Styles** and click the **Add New** button.

The screenshot shows the 'Rating Styles' section of the GD settings. At the top, there's a navigation bar with tabs like General, Emails, Design, Import/Export, API, Post Types, Events, BuddyPress, Marker Cluster, Multiratings, and Embed. Below that is a sub-navigation with General, Rating Styles, and Ratings. The main area has a heading 'Rating Styles' with an 'Add New' button highlighted by a red box. Below it is a table with columns: Style Title, Rating Text, Icon / Image, Max Rating, Default, and Actions. A note says 'No items found.'

2 Fill in the fields as necessary, and then **Save** your new Rating Style.

The screenshot shows the 'Add Rating Style' form. It has sections for Title, Rating score (default 5), and five star text fields (1 Star Text: Terrible, 2 Star Text: Poor, 3 Star Text: Average, 4 Star Text: Very Good, 5 Star Text: Excellent). There are dropdowns for Rating type (Font Awesome) and Rating icon (fas fa-star). Buttons for Rating image (Upload Image) and Rating color (Select Color) are also present. At the bottom is a 'Save Style' button.

You may repeat this process to add as many Rating Styles as necessary.

Adding a New Rating

Before adding a new rating, make sure you have added at least one rating style.

1 Navigate to **GD > Settings > MultiRatings > Ratings** and click the **Add New** button.

The screenshot shows the 'Ratings' section of the GD settings. It has a similar navigation bar and sub-navigation as the previous section. The main area has a heading 'Ratings' with an 'Add New' button highlighted by a red box. Below it is a table with columns: Rating Title, Rating Style, Rating Image, Post Types, Categories, Display Order, and Actions. A note says 'No items found.'

2 Fill in the fields as necessary, and then **Save** the settings.

The screenshot shows the 'Add Rating' form. It has sections for Rating Title, Rating Style, Rating Image, Post Types, Categories, and Display Order. A 'Save' button is at the bottom. The background is mostly white with some light gray shading.

Repeat the process to add as many ratings as necessary.
