# GD > Single Taxonomies

⌚ 1 min read Last Updated: ⌚ 4 months ago

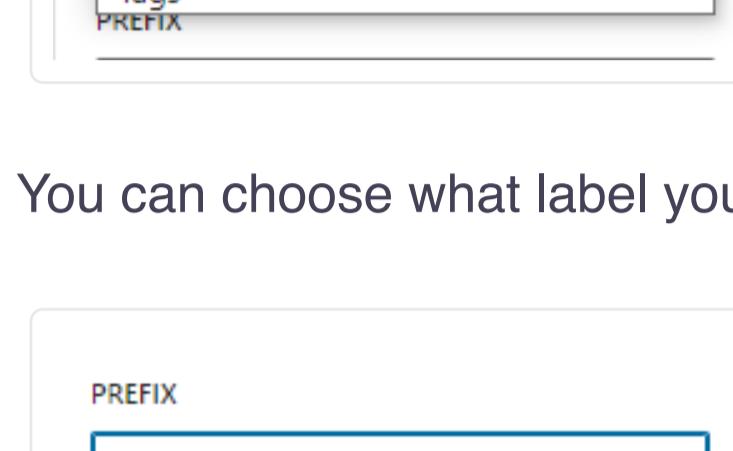

All Widgets come as Widgets, Shortcodes or Blocks. Learn more about our [Super Duper Widgets](#).

The **Single Taxonomies** widget outputs the categories and tags of a listing. Categories are left-aligned and tags are right-aligned.

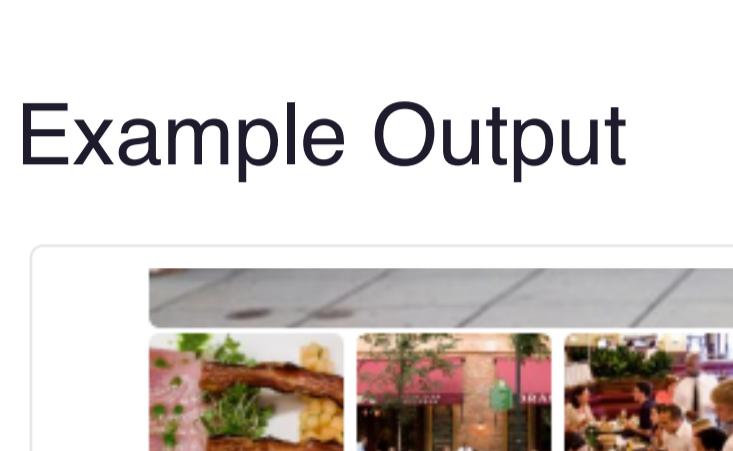

This widget will only work on the single details page and the GD Archive Item template.

## Widget Options

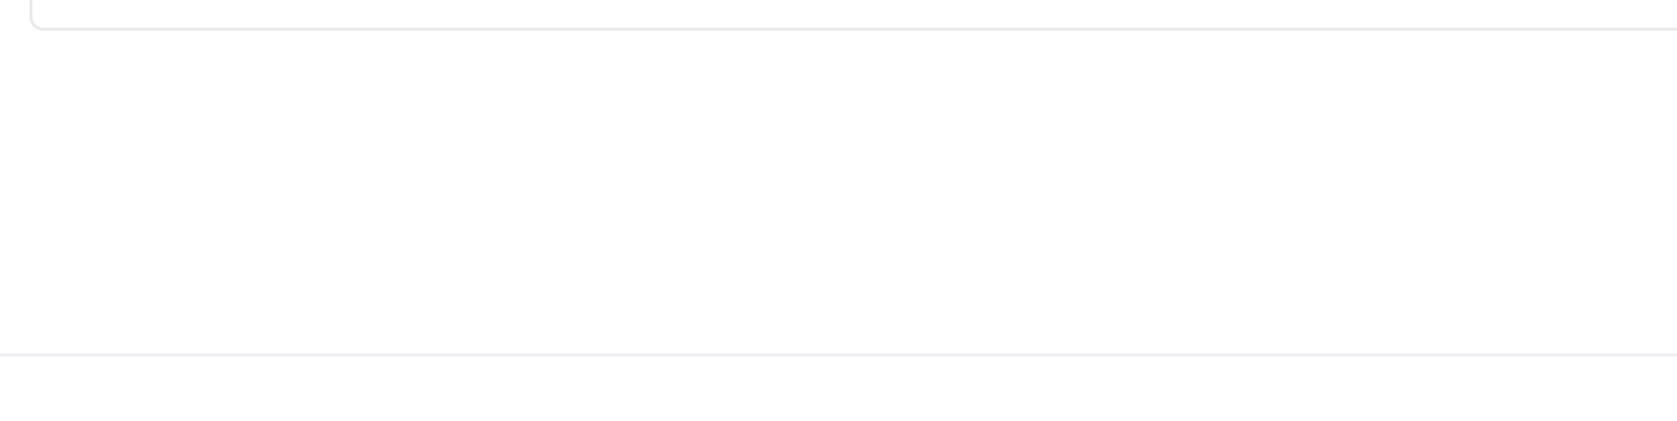

You can select to only **show the categories for the listing, or the tags, or both**:

You can choose what label you want to use:

## Example Output

Place Category: Food Nightlife and Restaurants Place Tags: America

On this page
