# How to Enable/Disable Comment Images and Reviews?

⌚ 1 min read Last Updated: ⌚ 4 months ago

On this page

[Comment Image Uploads and User Ratings](#)

MultiRatings and Reviews extension allows you to enable or disable image uploads on comments.

Similarly, you can also choose to enable or disable user reviews on comments, that is, the ability for users to mark a particular comment as helpful or not.

## Comment Image Uploads and User Ratings

1 Navigate to GD > Settings > MultiRatings > General.

2 To enable comment image uploads, tick the box next to the “Enable Comment Images Upload” option.

3 Similarly, to enable user ratings for comments, tick the checkbox next to the “Enable Review on Comments” option.

4 Save your settings.
